RESEARCH INTEREST

My research goal is to develop **human-centric AI** — leveraging computer vision and machine learning to address real-world social challenges. Toward this, I am also interested in **Trustworthy AI**, focusing on fairness and explainability.

EDUCATION

- **Yonsei University** Seoul, South Korea
B.S. in School of Sociology with a Minor in Applied Statistics (GPA: 3.90/4.30) Mar. 2021 – Aug. 2026

RESEARCH EXPERIENCES

- **Visual AI Lab, Yonsei University** Seoul, South Korea
Undergraduate Intern (Advisor: Haegon Jeon) Dec.2025 - Present
 - Human-Centric Trajectory Prediction incorporating Social Science Theories
- **Edge AI Lab, Yonsei University** Seoul, South Korea
Undergraduate Intern (Advisor: Dongjun Han) Aug.2025 - Nov.2025
 - Personalized Domain Generalization in Non-IID Federated Learning
- **Social Networks & Neuroscience Lab, Yonsei University** Seoul, South Korea
Undergraduate Research Assistant (Advisor: Yoosik Youm) Jan.2023 - Jul.2023
 - Research on Adolescents' Social Relationships and Mental Health

TEAM PROJECTS

- **Photorealistic Image Generation with Diffusion Models** [[Project Page](#)] Mar. 2025 – Current
Analyzing AI-generated image detectors in the aspect of attention imbalance
- **Monocular Dog Body Length Estimation** Sep. 2024 – Dec. 2024
Developing dog body length prediction performance with depth estimation model
- **Memorial Pet Contents Generation*** Feb. 2024 – Mar. 2024
Memorial pet contents generation with ControlNet and LoRA-finetuned LLaMA
- **Audio Sentiment Classification** May. 2024 – Jun. 2024
Enhancing real world emotion classification based on Frequency Decomposition
- **Sentiment Analysis for Restaurant Reviews** Feb. 2024 – May. 2024
Developing an end-to-end sentiment analysis system for restaurant reviews
- **Performance Review Archiving Service** Sep. 2023 – Feb. 2024
Implementation of web-based performance review archival system for university club

* Projects that serve as a team leader.

HONORS AND AWARDS

- **Mentoring Scholarship, Lotte Foundation** Sep. 2022 – Feb. 2025
Math mentoring volunteering for middle school students at local children's center
- **Certification, 5th LG Aimers/Data Intelligence** Aug. 2024
Topic: Developing a product defect detection model based on Process Data
- **CLIO Social Data Science Development Scholarship** May. 2023

EXTRACURRICULAR ACTIVITIES

- **Yonsei Data Science Lab**
11th Regular Member *Dec. 2023 - Dec. 2024*

SKILLS AND TECHNIQUES

- **TEPS - 333**
Issue Date: 2025.08.23
